Education

CSU Monterey Bay

Aug 2020

Bachelor of Science in Computer Science

Cuesta College

Aug 2018

Associate of Science in Computer Science

Work Experience

Test Automation Engineer, Solvd, Inc – Roseville, CA

Jan 2022 – Jun 2023

- Worked diligently as a tech auditor with a prominent tech giant to enforce privacy compliance
- Spearheaded a crucial audit to address highly outdated privacy compliance evidence
- Mentored over 5 new team members to teach best practices for tech auditing
- Gained deep exposure to industry-standard code in various programming languages

Projects

Mockup Store Website

Nov 2023 – Present

- Created independently for fun and to improve web design knowledge
- Self-taught fundamentals of grid and flex-based CSS design
- Created with pure HTML, CSS, and JavaScript; no frameworks implemented
- Project ongoing; visit anthdavis26.github.io/mockup-store

Test Automation Course (Solvd, Inc)

Oct 2021 – Dec 2021

- Created 2 DAO-pattern object-oriented business domains integrated with MySQL databases
- Implemented the Carina framework to engineer a robust test automation project
- Acquired Java, MySQL, GitHub, and comprehensive test automation knowledge from hands-on projects
- Collaborated with other students to resolve many software issues

Membership Direct (Capstone 2020)

Jan 2020 – May 2020

- Engineered web portals using PHP to facilitate user database interaction more easily
- Conducted manual testing of frontend and backend functionality, greatly improving user security
- Learned important aspects of responsive web design such as flexboxes and viewport dimensions
- Created presentation video which was warmly received by school colleagues

Skills

Languages: Java, C++, PHP, MySQL, HTML, CSS, JavaScript

Frameworks: Carina, TestNG, JAXB, Jackson
